Medicago falcata Turkey 204457

In tests for resistance to Pythium irregulare, this line showed 80.78% survival, compared with the control, Rhizowa. This line, along with 204458, 204885 and 255178 are among those showing highest resistance but none were more resistant than Rhizowa. Tetraploids showed more tolerance than diploids. This line is a tetraploid - E. L. Sorensen, Kans, Ltr 11/14/62 + 1962 acc perf rep.
