

Medicago sativa

Sweden

268066

1969  
-----  
Shows resistance to the spotted alfalfa aphid.--(Arnold Thomas Seed Service-H. L. Carnahan)-  
Minutes of 1968 Technical Committee Meeting, Appendix 9, 67. See summary card.) 308443

1969  
-----  
Individual plants have resistance to spotted alfalfa aphid. However, they also have  
undesirable characteristics, so may not be used in immediate parentage of improved alfalfas  
but should provide the basis for diverse germplasm. See summary card. 308444

- Letter from H. L. Carnahan to B. Crampton, both of California, 9/15/69
