

**10331 to 10339**—Continued.**10335 to 10337.** AMYGDALUS PERSICA.**Peach.**

Cuttings as follows:

**10335.** *Rugani gau* (or *gaur*).**10337.** *Shaftali*, white.**10336.** *Shaftali-inzhir*.**10338.** AMYGDALUS COMMUNIS.**Almond.**

Cuttings.

**10339.** JUGLANS REGIA.**Persian walnut.**

Nuts from trees growing at a considerable altitude, and should, therefore, be rather late in blooming.

**10340 to 10342.** VITIS VINIFERA.**Grape.**

From Nikita, near Yalta, Crimea. Presented to Mr. E. A. Bessey by Mr. Theophil Kalaida, head gardener of the Imperial Gardens at Nikita. Received January 29, 1904.

Grape cuttings as follows:

**10340.** *Shabash*.

Most widely cultivated of the native sorts in Crimea, nine-tenths of the exported Crimean grapes being of this sort (in 1891). A greenish grape, forming medium-sized to large, firm bunches of large roundish berries. Table sort. (Marked *Madame* on label attached to cuttings.)

**10341.** *Tchauch*.

Greenish, large berries, often almost like plums. Bunches loose. Rather capricious, being easily affected by rainy or windy weather. Not much exported. Dessert sort.

**10342.** *Asma*.

Blue black, large, elongated berries in large bunches. Table sort. Not so good as the preceding, but prized for the table because of the contrast between its black bunches and the greenish ones of the other sorts.

**10343 and 10344.** CORYLUS AVELLANA.**Filbert.**

From Nikita, near Yalta, Crimea. Presented to Mr. E. A. Bessey by Mr. Theophil Kalaida, head gardener of the Imperial Gardens at Nikita. Received January 29, 1904.

**10343.** *Badem*.

Native near Yalta. Elongated, large nuts.

**10344.** *Trebizond*.

Native near Trebizond, Asiatic Turkey. Nuts large and round; much grown around Yalta.

**10345 to 10348.** PYRUS MALUS.**Apple.**

From Nikita, near Yalta, Crimea. Presented to Mr. E. A. Bessey by Mr. Theophil Kalaida, head gardener of the Imperial Gardens at Nikita. Received January 29, 1904.

**10345.** *Saba Sinap*.

Distinguished for its beautiful appearance.

**10346.** *Kandil Sinap*.

Widely grown in the Crimea. Fruit longer than No. 10348. For description of both, see *Revue Horticole*, No. 17, 1890, p. 398.

**10347.** *Konstantinopol*.**10348.** *Sari Sinap*.

The most widely grown and best of the Crimean apples. Very late keeper.
