**12669.** CUCUMIS MELO.**Muskmelon.**

From Boston, Mass. Received thru R. & J. Farquhar & Co., January 6, 1905.  
*Montreal Nutmeg.*

**12670.** ULEX EUROPAEUS.**Gorse, whin, or furze.**

From Dublin, Ireland. Received thru Hogg & Robertson, January 6, 1905.

"Fresh roots covered with root tubercles, imported in cooperation with the Laboratory of Plant Physiology for the purpose of getting cultures of the micro-organism of these tubercles to be used in experiments in the introduction of the plants, the seed of which was introduced under No. 12408." (*Fairchild.*)

**12671.** MEDICAGO SATIVA.**Alfalfa.**

From Lawrence, Kans. Received thru F. Barteldes & Co., January 6, 1905.

**12672 to 12677.** OLEA EUROPAEA.**Olive.**

From Tunis, North Africa. Secured by Mr. Thomas H. Kearney. Received January 6, 1905. A collection of olive cuttings from the premises of M. Robert, Kalaa Srira, Susa.

- 12672.** *Souaba el Aljia.* An oil olive. Rather a small yielder, according to Minangoïn.
- 12673.** *Chaibi.* An uncommon but heavy yielding variety of oil olive that succeeds best in northern Tunis.
- 12674.** *Senni* (butter). An olive which remains yellow green even when ripe; gives oil of very light color but of finest quality.
- 12675.** *Khadraya* (green). An oil olive.
- 12676.** *Kalb es Serdonk* (cock's heart). A small oil olive like Chemlali, yielding very heavily, adapted to dry lands.
- 12677.** *Nekkri.* Gives oil of finest quality.

**12678.** PANICUM MAXIMUM.**Guinea grass.**

From Havana, Cuba. Received thru José Sagarmínaga, seedsman, Obispo 66, January 7, 1905.
