

100724 to 100798—Continued.

100763. No. 452. Round, oval, medium-sized, white tubers, faintly pink at the shallow open eyes, with clear white flesh.
100764. No. 453. Round, smooth, medium-sized, white tubers with shallow colorless eyes and white flesh, faintly tinged with yellow.
100765. No. 454. Long, cylindrical, pointed, purple tubers with deep, closed, eyes and white flesh with a yellowish tinge and purple mottling near the epidermis in the bud-end half.
100766. No. 455. Medium-sized, round, dark-pink tubers with medium to deep, open eyes of a brighter pink and white flesh.
100767. No. 456. Medium-sized, flat, oval, bright-purple tubers with dirty-white flesh and flat, open eyes with long eyebrows.
100768. No. 457. Large, round, uniformly red tubers with deep wide-open eyes and white flesh, the center of which has a water-soaked appearance.
100769. No. 458. Small, long, pointed, pink tubers, some of which are curved, with medium, closed eyes and white flesh, which is red inside the vascular ring.
100790. No. 459. Round to cylindrical, medium-sized, smooth white tubers with shallow, open, pink eyes and white flesh.
100791. No. 460. Medium-sized, round, tan-white tubers with small, open, light-pink eyes and light-pink eyebrows. The flesh is a uniform yellow.
100792. No. 461. Small, smooth, flat oval, pointed, white tubers with very flat, colorless eyes and yellow-white flesh.
100793. No. 462. Medium to small, round, gray-tan tubers with medium, open eyes and yellow-white flesh.
100794. No. 463. Round to cylindrical tubers, spotted purple at the stem end and tan-white at the bud end, shallow, open eyes with purple buds and white flesh.
100795. No. 464. Small, cylindrical, pointed, white tubers with deep, semiopen eyes and clear white flesh.
100796. No. 465. Medium-sized, round, pink-purple tubers with medium, open eyes which are pink at the bud end, and yellow-white flesh.
100797. No. 466. Medium to small, round to cylindrical, white tubers with clear white flesh and medium to shallow, open eyes, which are pink around the buds.
100798. No. 467. Small, long, pointed, white tubers, faintly pink around the lenticels, with a tendency to be flat and curved, shallow, closed eyes, and dirty-white flesh.

100799 to 100832. CINCHONA spp.
Rubiaceae.

From Guatemala. Cuttings presented by Col. Victor E. Ruelh, Caldwell, N.J. Received July 13, 1932.
