

114498 to 114524—Continued.

114523. *LYCOPERSICON ESCULENTUM* Mill. Solanaceae. Tomato.

Variety *Cerasiforme*.

114524. *VITIS DAVIDII* (Carr.) Foëx. Vitaceae. Brier grape.

A very late grape with bunches which weigh over 2 pounds.

For previous introduction see 78817.

114525 and 114526.

From Pennsylvania. Seeds presented by Edgar T. Wherry, University of Pennsylvania, Philadelphia. Received April 23, 1936.

114525. *ELLIOTTHIA RACEMOSA* Muhl. Ericaceae.

114526. *TRIPETALEIA PANICULATA* Sleb. and Zucc. Ericaceae.

A shrub 4 to 6 feet high, with red-brown branchlets, native to Japan. The rhomboid-ovate leaves are 1 to 3 inches long, and the small pink-tinged white flowers, with three distinct petals, are in terminal panicles 2 to 4 inches long.

For previous introduction see 102309.

114527 to 114545.

From England. Seeds presented by the Director, University Botanic Garden, Cambridge. Received April 9, 1936.

114527 to 114529. *BETA* spp. Chenopodiaceae. Beet.

114527. *BETA VULGARIS* L. Common beet.

114528. *BETA PATELLARIS* Moq.

For previous introduction see 114464.

114529. *BETA TRIGYNA* Waldst. and Kit.

114530 to 114533. *DELPHINIUM* spp. Ranunculaceae. Larkspur.

114530. *DELPHINIUM CAUCASICUM* C. A. Mey.

For previous introduction and description see 114382.

114531. *DELPHINIUM GAYANUM* Wilmott.

For previous introduction see 114485.

114532. *DELPHINIUM REQUIENI* DC.

A biennial larkspur about 4 feet high, with three- or five-parted leaves and sky-blue flowers in lax racemes. Native to the islands of Corsica and Majorca.

For previous introduction see 105090.

114533. *DELPHINIUM YUNNANENSIS* Franch.

For previous introduction and description see 114507.

114534 to 114536. *LACTUCA* spp. Cichoriaceae. Lettuce.

114534. *LACTUCA PERENNIS* L.

For previous introduction and description see 114488.

114535. *LACTUCA SERBIOLA* L.

Frickly lettuce.

For previous introduction see 114512.

114536. *LACTUCA VIROSA* L.

For previous introduction and description see 114489.

114527 to 114545—Continued.

114537 to 114539. *PASSIFLORA* spp. Passifloraceae.

114537. *PASSIFLORA BRYONIOIDES* H. B. K.

A herbaceous vine with broad deeply three-lobed leaves 2 to 3 inches long and solitary white flowers about 1 inch across. Native to Mexico.

114538. *PASSIFLORA GRACILIS* Jacq.

For previous introduction see 114513.

114539. *PASSIFLORA QUADRANGULARIS* L. Giant granadilla.

114540 and 114541. *PISUM SATIVUM* L. Fabaceae. Pea.

114542 to 114545. *SOLANUM* spp. Solanaceae.

114542. *SOLANUM ATROPURPUREUM* Schrank.

For previous introduction see 110608.

114543. *SOLANUM CAPSICASTRUM* Link. False Jerusalem-cherry.

For previous introduction see 114180.

114544. *SOLANUM MELONGENA* L. Eggplant.

114545. *SOLANUM NODIFLORUM* Jacq.

A woody perennial about 2 feet high, with ovate entire leaves 2 to 5 inches long and very small white flowers in small umbels, followed by small black globose berries. Native to tropical America.

For previous introduction see 104864.

114546 to 114548.

From Peru. Seeds presented by Dr. Cesar Vargas, University of Cuzco, Cuzco. Received April 13, 1936.

114546. *FRAGARIA CHILOENSIS* (L.) Duchesne. Rosaceae. Chiloe strawberry.

Fruits collected at Urubamba, February 29, 1936, at 3,100 meters altitude.

114547. *RUBUS ROSEUS* Poir. Rosaceae.

Native names *cfari-efari*, *zarsamora*. A large-fruited wild red raspberry collected at Ollantaytambo, February 29, 1936, at 3,100 meters altitude.

For previous introduction see 53218.

114548. *RUBUS URTICAEFOLIUS* Poir. Rosaceae.

Native name *cfari-efari*. Collected at Ollantaytambo, February 29, 1936, at 3,000 meters altitude. A Peruvian species with strong-growing canes 12 feet high and rather thorny. Flowers and fruits in all stages occur on the same plant. The ripe fruits are slightly acid, but with no characteristic flavor.

For previous introduction see 101221.

114549 to 114586. *NICOTIANA TABACUM* L. Solanaceae.

Common tobacco.

From Mexico. Seeds collected by W. A. Archer, Bureau of Plant Industry. Received April 23, 1936.

114549. No. 3595. Cultivated tobacco collected October 27, 1935, at Papaloapam, Veracruz.
