

20001 to 20229—Continued.

- 20026. SPINACIA OLERACEA. Spinach.**
From Liaoyang, Manchuria. "(No. 267a, June 20, 1906.) A good, large-leaved spinach grown in sheltered places all through the winter and producing greens until early summer." (Meyer.)
- 20027. SPINACIA OLERACEA. Spinach.**
From Antung, Manchuria. "(No. 268a, July 12, 1906.) A large-leaved spinach grown in sheltered places during the whole winter and producing greens until early summer." (Meyer.)
- 20028. RAPHANUS SATIVUS. Radish.**
From Liaoyang, Manchuria. "(No. 269a, June 20, 1906.) A long, white, winter variety. Chinese name *Pai-loba*. The seeds are sown in the summer and the radishes are harvested before the frost sets in and are kept in rat-proof cellars." (Meyer.)
- 20029. RAPHANUS SATIVUS. Radish.**
From Liaoyang, Manchuria. "(No. 270a, June 20, 1906.) A long, white, summer variety. A rather good variety, of which the seeds are sown very early in the spring on somewhat sheltered places and which produces good roots in about ten weeks." (Meyer.)
- 20030. RAPHANUS SATIVUS. Radish.**
From Liaoyang, Manchuria. "(No. 271a, June 20, 1906.) A long, red, summer variety; eaten either boiled or stewed. A very good vegetable, which is even served in the foreign hotels in northern China. Sow early on well-prepared soil in sheltered places." (Meyer.)
- 20031. RAPHANUS SATIVUS. Radish.**
From Shan-hai-kwan, China. "(No. 272a, Apr. 28, 1906.) A white winter radish. Chinese name *Pa loba*." (Meyer.)
- 20032. RAPHANUS SATIVUS. Radish.**
From Shan-hai-kwan, China. "(No. 273a, Apr. 28, 1906.) A red winter radish. Chinese name *Hong loba*. Said to be a large variety. Plant 1 foot apart in each direction in porous soil." (Meyer.)
- 20033. BRASSICA PE-TSAL. Pe-tsai cabbage.**
From Liaoyang, Manchuria. "(No. 274a, June 20, 1906.) A summer cabbage; Chinese name *Pai tsay*. A loose-headed form of the Chinese cabbage. This variety is sown early in the spring and eaten all through the summer." (Meyer.)
- 20034. BRASSICA PE-TSAL. Pe-tsai cabbage.**
From Liaoyang, Manchuria. "(No. 275a, June 20, 1906.) For description see No. 274a (S. P. I. No. 20033); but this is said to be a somewhat inferior variety." (Meyer.)
- 20035. BRASSICA PE-TSAL. Pe-tsai cabbage.**
From Liaoyang, Manchuria. "(No. 276a, June 20, 1906.) Chinese name *Pai tsay*. A variety of cabbage which is used for salt pickling and is also dried in the sun. The pickled cabbage is considered a necessary relish at a Chinese meal." (Meyer.)
- 20036. BRASSICA PE-TSAL. Pe-tsai cabbage.**
From Liaoyang, Manchuria. "(No. 277a, June 7, 1906.) A superior variety of summer cabbage. Chinese name *Pai tsay*." (Meyer.)
