

21570 and 21571. RUBUS spp.**Raspberry.**

From Shanghai, China. Presented by Rev. J. M. W. Farnham, D. D., Chinese Tract Society. Received Oct. 23, 1907.

21570.

"Native wild black raspberry from Mokunshan, China." (*Farnham.*)

21571.

"Seeds of a wild raspberry." (*Farnham.*)

21572. JACQUEMONTIA PENTANTHA.

From Miami, Fla. Collected by Mr. P. J. Wester, special agent, Subtropical Laboratory and Garden. Received Nov. 23, 1907.

"Lab. No. 500. This plant is a perennial vine, moderately vigorous, and is native to the Florida Keys. The leaves are dark green, the flowers bright blue, about 2 centimeters in diameter, and one of the most dainty flowers I have ever seen. One to four flowers at a time open on the cyme, which contains several dozen flower buds. The plant is exceedingly floriferous, and I am sure that, being so distinct from all other flowers on climbing plants, it will prove an interesting acquisition to ornamental climbers." (*Wester.*)

21573. ANONA sp.

From Toco, Trinidad, British West Indies. Received through Mr. O. W. Barrett, Port of Spain, Trinidad, Nov. 25, 1907.

"Seeds of an Anona nearly related to *Anona squamosa*; fair fruit." (*Barrett.*)

21574 to 21582.

From Alexandretta, Turkey. A collection of seeds of leguminous plants made by Mrs. F. A. Shepard, American Medical Mission, Aintab, Turkey, at the request of Mr. David Fairchild. Received Oct. 18, 1907.

"The following are seeds of plants that grow on our arid hills and that the animals eat with avidity." (*Shepard.*)

21574. MEDICAGO TRIBULOIDES.

21577. TRIGONELLA RADIATA.

21575. MEDICAGO LUPULINA.

21578. TRIGONELLA CRASSIPES.

21576. MEDICAGO TUBERCULATA (?).

21579. TRIGONELLA MONANTHA.

"The following seeds I found at a village near the Amanus Mountains. These are used as fodder by the villagers in that region. They are dried for the animals for winter, and the peas are ground up and fed to cattle." (*Shepard.*)

21580. VICIA sp.

21582. VICIA sp.

Yonja.

Pakla.

21581. VICIA sp.

Kushme.

21583. CITRUS LIMONUM.**Lemon.**

From Riverside, Cal. Presented by Mr. James Mills, superintendent, Arlington Heights Fruit Company. Received November 25, 1907.

Villa Franca. The above cuttings were procured for Mr. D. W. May, Porto Rico Agricultural Experiment Station, Mayaguez, Porto Rico.

21584 to 21593.

From Bodøe, Tromsø, Norway. Received from Mr. L. P. Nilssen, director of the agricultural school and experiment station, through Prof. N. E. Hansen, of the Agricultural Experiment Station, Brookings, S. Dak., as agricultural explorer for the Department of Agriculture, November 23, 1907.
