

127783 to 127850—Continued

127785. *CUCURBITA MAXIMA* Duchesne. Cucurbitaceae. **Squash.**

No. 166. *Zapallo*. From the market at Arequipa, January 4, 1938, but probably grown at Tasma. Fruit variable in color, bluish gray or greenish gray with orange markings.

127786. *CYPELLA HERBERTII* Herbert. Iridaceae.

No. 225. From Cuzco, presented by Dr. C. Vargas, January 16, 1938. A plant with a bulbous base and linear leaves about 1 foot long. The erect, branched stalk, 2 to 3 feet high, bears 5 or 6 flowers, each about 3 inches across; the petals are orange red with green markings at base. Native to southern Brazil, Uruguay, and northern Argentina.

For previous introduction see 119818.

127787. *DALECHAMPIA ARISTOLOCHIAEFOLIA* H. B. K. Euphorbiaceae.

No. 203. Found growing along and over rock fences near Abancay, January 15, 1938. A slender woody climber with ovate leaves about 3 inches long and small flowers with showy violet bracts. Native to Ecuador.

127788. *DATURA SANGUINEA* Ruiz and Pav. Solanaceae. **Red floripondio.**

No. 192. From above Limatambo, January 14, 1938. A large treelike shrub 4 to 12 feet high, with pubescent, ovate-acuminate leaves and brilliant brick-red, pendulous flowers 8 inches long. Native to Peru.

For previous introduction and description see 126903.

127789. *DATURA STRAMONIUM* L. Solanaceae.

For previous introduction see 116246.

127790. *FRAGARIA CHILOENSIS* (L.) Duchesne. Rosaceae. **Chiloe strawberry.**

No. 186. *Frutilla*. From Macchu Picchu, along the Urubamba River, at about 4,000 feet altitude.

For previous introduction see 121799.

127791. *LAVATERA ASSURGENTIFLORA* Kellogg. Malvaceae.

California treemallow.

No. 113. From Huamachuco, December 19, 1937. A shrub 3 to 4 feet high, freely branched at the base, with round, deeply cleft leaves 3 inches across and axillary, purplish flowers 2 inches across. Native to southern California islands.

127792. *LANTANA* sp. Verbenaceae.

No. 195. Found among rocks just above and west of Curahausi at about 6,025 feet altitude. A low ornamental shrub of spreading habit with yellow flowers.

127793. *LOASA CUZCOENSIS* Killip. Loasaceae.

No. 224. From near Cuzco, January 16, 1938. A stout annual about 2 feet high, with ovate, subpinnately lobed leaves 2 to 6 inches long and white flowers about 1 inch across. Native to Peru.

127794 to 127833. *LYCOPERSICON* spp. Solanaceae. **Tomato.**

127794 to 127804. *LYCOPERSICON ESCULENTUM* Mill.

127794. No. 154. From the market at Huaraz, December 26, 1937, but grown at Caras. Fruit smooth, but flat and ribbed.

127795. No. 155. From the market at Yungay, December 26, 1937. Fruit extremely variable, many very rough.

127796. No. 155-A. From the market at Huarney, December 29, 1937. A mixed sample of various rough fruits.

Nos. 127797 and 127798. From the market at Huacho, December 30, 1937.

127797. No. 156. Fruit rough and flat.
