

127783 to 127850—Continued

127839. *SARACHA CONTORTA* Ruiz and Pav. Solanaceae.

No. 191. From fields above Limatambo, at 12,500 feet altitude, January 14, 1938. An annual with ovate leaves and small clusters of campanulate, pale-yellow flowers. Native to Peru.

127840 to 127849. *SOLANUM* spp. Solanaceae.

127840 and 127841. *SOLANUM TUBEROSUM* L.

Potato.

Paysas. From Yuscay, at 9,660 feet altitude, January 13, 1938.

127840. No. 188. Purple flowers.

127841. No. 189. White flowers.

127842. *SOLANUM* sp.

No. 139. *Yerba Morra*. South of Cajamarca, December 21, 1937. A plant with purple flowers; used medicinally.

127843. *SOLANUM* sp.

No. 144. *Yerba Santa*. From Huaraz, December 26, 1937 at 10,000 feet altitude. A large shrub with scented foliage; leaves entire, linear, 4 to 6 inches long; flowers purplish white.

127844. *SOLANUM* sp.

No. 170. From Sacabana, west of Arequipa, at 8,000 feet altitude, January 5, 1938. A shrubby plant with yellowish-green fruits.

127845. *SOLANUM* sp.

No. 173. From the hills above Pisac, about 12,000 feet altitude, January 9, 1938.

127846. *SOLANUM* sp.

No. 205. From Abancay, January 13, 1938. A shrub 6 to 8 feet high, with tomentose yellow berries.

127847. *SOLANUM* sp.

No. 211. Along the river bed below Limatambo, at 8,700 feet altitude. A shrub with green fruits.

127848. *SOLANUM* sp.

No. 236. From Chulumani, Bolivia, at 6,000 feet altitude, January 21, 1938. A small tree with few thorns; fruits dark blue to black.

127849. *SOLANUM* sp.

No. 242. From above La Paz, Bolivia, at 13,500 feet altitude, January 21, 1938. A bush covered with cherry-red fruits, less than ½ inch in diameter.

127850. *STENOLOBIUM AREQUIPENSE* Sprague. Bignoniaceae.

No. 207. From Abancay, at 9,700 feet altitude, January 15, 1938. An erect shrub to 6 feet high, with slender 4-angled branches and pinnate leaves 4 to 5 inches long. The funnel-shaped orange flowers are 2 to 3 inches long and are borne in terminal racemes 4 to 8 inches long. Native to Peru.

127851. *RUBUS* sp. Rosaceae.

From Germany. Plants purchased from Wilhelm Pfitzer, Stuttgart. Received March 14, 1938.

St. Walfried raspberry.

127852 to 127872.

From Maryland. Plants growing at the United States Horticultural Station, Beltsville. Numbered in February 1938.

127852. *ATALANTIA MISSIONIS* (Wight) Oliver. Rutaceae.

A small tree much resembling an orange tree in habit, with pale-gray bark and branches armed with short stiff spines, rather large stiff elliptic leaves with indistinct veining, and small white flowers. The very sweet fruit is like a small dark orange; and the pale yellow-white wood is close grained, smooth, and suitable for cabinet work.

For previous introduction see 98731.
