

131862 to 131874.—Continued.

131871. *RUBUS SCHLECHTENDAHLII* Weihe. Blackberry.

A blackberry related to *Rubus macrophyllus*; native to Europe.

For previous introduction see 123766.

131872. *RUBUS THYRSIFLORUS* Weihe and Nees.

A European species with nearly prostrate, rarely climbing stems, leaves divided into 3 or 5 broad, irregularly toothed leaflets, rather small white flowers, and small fruits.

For previous introduction see 42788.

131873. × *RUBUS THYRSIGER* Banning and Focke.

A hybrid of *Rubus scaber*, differing from that species in having a narrow, often elongated inflorescence and broader leaflets, pilose beneath.

For previous introduction see 123767.

131874. *RUBUS*.

John Innes, a blackberry said to be a hybrid between *Rubus ulmifolius inermis* and *R. thyrsiger*.

For previous introduction see 131466.

131875. *TABEBUIA PALLIDA* (Lindl.) Miers. Bignoniaceae.

From Puerto Rico. Seeds presented by L. R. Holdridge, Associate Forester, Southern Forest Experiment Station, United States Department of Agriculture, Rio Piedras. Received March 6, 1939.

Roble. A vigorous deciduous tree 20 to 60 feet high, with flowers ranging in color on different trees from rose to very pale pink and appearing in masses before the leaves. The hard white wood is used for construction. In Puerto Rico this tree is called "roble" or "roble blanco," meaning oak or white oak. Native to the West Indies.

131876 to 131884.

From Argentina. Seeds collected by Paul E. Yatman, and presented through Swift & Co., Buenos Aires. Received March 7, 1939.

131876. *AMYGDALUS PERSICA* L. Amygdalaceae. Peach.

131877 to 131882. *LYCOPERSICON ESCULENTUM* Mill. Solanaceae. Tomato.

131877. *Campana*. From the District of Hudson, along the river 30 km. south of Buenos Aires.

131878. *Los Talas*. Collected along the Rio de la Plata near Rio Santiago, 30 km. south of Buenos Aires.

131879. *Palo Blanco*. Collected along the Rio de la Plata near Rio Santiago, 50 km. south of Buenos Aires.

131880. *Rey Humberto*. An Italian variety, imported from Italy, with elongated, pear-shaped fruits.

131881. *San Marzano*. An Italian variety.

131882. *Varela*. From the Florencio Varela District, 30 km. south of Buenos Aires.

131883 and 131884. *PISUM SATIVUM* L. Fabaceae. Pea.

131883. *Arroyo Seco*. From the Arroyo Seco District, 300 km. north of Buenos Aires.

131884. *Baradero*. From the Baradero District, 150 km. north of Buenos Aires, along the river.

131885. *LACTUCA ALTAICA* Fisch. and Mey. Cichoriaceae.

From Egypt. Seeds presented by Alfred Bircher, The Middle Egypt Botanic Station, El Saff. Received March 8, 1939.
