

139336 to 139422—Continued

139398 to 139400. *UVARIA* spp. Annonaceae.

139398. *UVARIA* sp.

No. 322. From Manipa Island, Moluccas, May 6, 1940. A tall-growing woody climber, with oblong, glossy-black fruits 5 inches in diameter. The juicy red flesh is acid and of good flavor.

139399. *UVARIA* sp.

No. 342. From Kasiroeta Island, Moluccas, May 20, 1940. A small tree 8 feet high, with clusters of oval yellow fruits $\frac{1}{2}$ inch by $\frac{3}{8}$ inch; the scanty pulp is very bitter.

139400. *UVARIA* sp.

No. 396. From Gedi, Halmahera Island, Moluccas, June 4, 1940. A rank-growing vine, with large coarse glossy green leaves and rough, dull brownish-yellow fruits $1\frac{1}{4}$ inches long, of woody texture.

139401. *VITEX* sp. Verbenaceae.

No. 319. From Maripa Island, Moluccas, May 6, 1940. A tree about 30 feet high, with large spikes of lilac, nonfragrant flowers.

139402. *XYLOCARPUS GRANATUM* Koen. Meliaceae.

No. 372. From near Pajahi Bay, Halmahera Island, Moluccas, May 27, 1940.

For previous introduction see 67424.

139403. *CALLICARPA PENTANDRA* Roxb. Verbenaceae.

No. 414. From Karakalang Island, Talaud Group, Moluccas, June 12, 1940. A large tree, with ovate leaves 8 inches long, covered with stellate brown pubescence. The very small purplish flowers are in flat-topped cymes 4 to 6 inches across.

139404. (Undetermined.)

No. 354. From Kasiroeta Island, Batjan Group, Moluccas, May 21, 1940. A gingerlike plant, with immense broad leaves on leafy stems 10 feet long, giving the appearance of a giant reed. The globular fruits, 1 inch in diameter, are in large pendent clusters 20 inches long and 4 inches across.

139405. (Undetermined.)

No. 413. From Karakelang Island, Talaud Group, Moluccas, June 12, 1940. An attractive shrub.

139406. (Undetermined.)

No. 344. From Mandioli Island, Moluccas, May 18, 1940. A small tree, with compound leaves and small pendent clusters of yellow pods. The pods, $\frac{1}{2}$ inch long and $\frac{3}{4}$ inch across, are open to expose two brown seeds covered with shiny red arils.

139407. (Undetermined.)

No. 350. From Kasiroeta Island, Batjan Group, Moluccas, May 1940. A medium-sized tree, with thin, opposite leaves 5 inches long, containing sweetish pulp and one or two brown seeds.

139408. (Undetermined.)

No. 398. From Halmahera Island, Moluccas, June 3, 1940. A slender-branched shrub 10 feet high, sparsely leaved, and covered with clusters of small red berries.
