

**242105. EHRETIA ANACUA (Ter. & Berl.) Johnst. Boraginaceae.**

From the United States. Seeds presented by Lynn Lowry, Houston, Texas.  
Received September 9, 1957.

Collected on Collete Creek, near Victoria, Texas.

**242106. HORDEUM sp. Poaceae.**

From Japan. Seeds presented by Skikoku Agricultural Experiment Station,  
Zentsuji, Kagawa. Received September 11, 1957.

'Ishadoka Hulless'.

**242107. CLERODENDRUM sp. Verbenaceae.**

From Costa Rica. Seeds collected by C. H. Lankester, Cerro de la Muerte,  
San Isidro. Received September 11, 1957.

**242108 to 242140.**

From Scotland. Cuttings by F. G. Meyer, agricultural explorer, Plant Intro-  
duction Section, Crops Research Division, Beltsville, Md. Received Sep-  
tember 11, 1957.

From the Botanical Garden, Edinburgh.

**242108 to 242110. ILEX AQUIFOLIUM L. Aquifoliaceae. English holly.**

**242108.** Col. No. 5213. 'Argentea Marginata'. Leaves coarse, spiny,  
margin whitish band, remainder green and lustrous. (Pistillate).

**242109.** Col. No. 5214. 'Argentea Medio Picta'. Leaves strongly  
undulate-margined, coarsely spiny-toothed, some branches with leaves  
white-blotched. (Pistillate).

**242110.** Col. No. 5216. 'Aurea Marginata'. Leaves ovate, undulate-  
margined with a yellow band on the periphery above, otherwise green and  
lustrous. (Pistillate).

**242111. ILEX × ALTACLARENSIS Dallim. Holly.**

Col. No. 5209. 'Graecian'. Leaves variously recurved, tipped and  
undulate, spiny-margined, lustrous and green. (Staminate).

**242112 to 242115. ILEX AQUIFOLIUM L. English holly.**

**242112.** Col. No. 5217. 'Ferox'. Hedge-Hog-Holly. Leaves strongly  
undulate-margined, coarsely spiny over most of the upper surface, green and  
lustrous. (Staminate).

**242113.** Col. No. 5228. 'Ferox-Argentea'. Leaves coarsely spiny with a  
yellowish band. (Staminate).

**242114.** Col. No. 5196. 'Flavescens'. Leaves uniformly green irregularly  
and coarsely spiny tipped, elliptic. (Pistillate).

**242115.** Col. No. 5197. 'Fructu-luteo'. Leaves coarsely spine-tipped,  
uniformly deep lustrous green fruit yellow. (Pistillate).

**242116 to 242121. ILEX × ALTACLARENSIS Dallim. Holly.**

**242116.** Col. No. 5198. 'Golden King'. Leaves uniformly coarse, spiny,  
some of them variously mottled yellowish through green. (Pistillate).

**242117.** Col. No. 5210. 'Graecian'. Leaves mostly elliptic, lustrous  
green, coarsely spine-toothed. (Staminate).

**242118.** Col. No. 5199. 'Hodginsii Variegata'. Leaves extremely variable,  
mostly coarsely spine-tipped, predominantly yellow margined, but some-  
times yellow throughout. (Staminate).

**242119.** Col. No. 5218. 'Hodginsii'. Leaves irregularly spiny-toothed,  
sometimes entire, lustrous above. (Pistillate).

**242120.** Col. No. 5219. 'Intermedia'. Leaves elliptic, but uniformly  
coarse-spiny, green and lustrous. (Pistillate).
