

**242171 to 242181—Continued**

**242171.** *ILEX AQUIFOLIUM* L. Aquifoliaceae. **English holly.**

Col. No. 5233. 'Aurea-Regina'. Golden Queen Holly. Leaves mostly ovate, coarsely undulate-toothed, margins uniformly golden yellow. (Staminate)

**242172.** *ILEX* × *ALTACLARENSIS* Dallim.

Col. No. 5238. 'Camelliaefolia'. Plant pistillate; leaves to 6 inches long, spine-toothed to entire.

**242173 to 242178.** *ILEX AQUIFOLIUM* L. **English holly.**

**242173.** Col. No. 5231. 'Ciliata Major'. Tree to 20 feet high; twigs purplish; leaves entire, variously undulate-margined, rarely flat.

**242174.** Col. No. 5234. 'Crassifolia'. Plant pistillate; leaves narrowly elliptic, thick uniformly coarse spine-toothed, semi-undulate margined.

**242175.** Col. No. 5237. 'Handsworth New Silver'. Leaves to 3 inches long, elliptic, uniformly coarse, long spine-toothed, semi-undulate, margins a narrow white band. (Staminate)

**242176.** Col. No. 5229. 'Pendula Tricolor'. Leaves uniformly coarse spine-toothed, margins mostly flat with a cream colored band. (Pistillate)

**242177.** Col. No. 5230. 'Watereriana'. Plant staminate, to 6 feet high, not very strong; leaves irregularly coarse, spine-toothed, sometimes entire, margin with a narrow yellow band.

**242178.** Col. No. 5235. 'Recurva'. Leaves uniformly coarse, undulate-spiny, lustrous green throughout. (Staminate)

**242179.** *ILEX CRENATA* Thunb. **Japanese holly.**

Col. No. 5239. 'Major'. Evergreen shrub to 10 feet high.

**242180.** *ILEX* × *BEANII* Rehd.

Col. No. 5332. (*I. aquifolium* × *I. dipyrrena*) Small evergreen tree; leaves finely spine-margined, dull green, lighter below; fruits red.

**242181.** *ILEX AQUIFOLIUM* L. **English holly.**

Col. No. 5236. 'Maderensis'. Leaves broadly ovate, sparsely spine-toothed to entire, lustrous green above; fruits red. (Pistillate)

**242182 to 242194.**

From Scotland. Cuttings collected by F. G. Meyer, agricultural explorer, Plant Introduction Section, Crops Research Division, Beltsville, Md. Received September 13, 1957.

From the Royal Botanical Garden, Edinburgh.

**242182 to 242185.** *ILEX AQUIFOLIUM* L. **English holly.**

**242182.** Col. No. 5249. 'Aurea-Marginata Angustifolia'. Leaves coarsely spine-toothed, margins undulate with a yellowish green band.

**242183.** Col. No. 5243. 'Argentea-Marginata'. Leaves uniformly coarse spine-toothed, margins with a narrow creamy-white band; branches pendulous. (Pistillate)

**242184.** Col. No. 5241. 'Aurea Medio-Picta'. Golden Milkmaid Holly. Leaves uniformly coarse spine-toothed, margins with a band of white.

**242185.** Col. No. 5247. 'Balearica'. Leaves mostly ovate, dull green above, spines soft.

**242186.** *ILEX* × *ALTACLARENSIS* Dallim.

Col. No. 5252. 'Camelliaefolia Aurea-Marginata'. Pistillate plant; leaves irregularly spine-toothed, variously mottled and blotched yellow, margins yellow or greenish yellow.
