337338. ORYZA SATIVA L. Gramineae. Rice.

From the Philippines. Seed presented by The International Rice Research Institute, Manila Hotel, Manila. Received Sept. 5, 1968.

IR510-11-3. FF-36 X B583A1-4X2.

337339. CELTIS AUSTRALIS L. Ulmaceae. European hackberry.

From Spain. Seed presented by Jardin Botanico, Plaza de Murillo 2, Madrid. Received Sept. 5, 1968.

337340 to 337361.

From Argentina. Seed collected by R. O. Hammons and W. R. Langford, Crops Research Division, Agricultural Research Service, Tifton, Ga., and Experiment, Ga. Received Sept. 5, 1968.

337340 to 337357. ARACHIS HYPOGAEA L. Leguminosae.

337340. Col. 202. Microcarpa type. On farm of Sr. Angel Dusso, Helvecia, Santa Fe Province, from very large stack (mound) harvested February 1968. Spanish. Pods small, 2 segmented, typical shape of United States cultivar 'Argentine' (P.I. 121070). Testa flesh. Pod size diminished over last 20 years. Grown at least two generations on this farm.

337341. Col. 203. Microcarpa type. Peanut area prior to culture in Cordoba. From farm of Sr. Angel Winkelman, Helvecia, Santa Fe Province. Spanish. Pods 2 segmented, typical shape of United States cultivar 'Argentine' (P.I. 121070). Testa flesh.

337342. Col. 204. Microcarpa type. Two km. north of Cayasta on Route 168A. From farm of Sr. Esteban Bonguan. Spanish. Pods 2 segmented, shape approximately that of United States cultivar 'Argentine' (P.I. 121070). Estimated to have been grown here since 1880, preceding "improved" varieties.

337343. Col. 205. Colonia Macias Experiment Station. Valencia. From yield test.

Department of San Luis del Palmar, Corrientes Province.

337344. Col. 336. From grower on Route 5. Valencia. Pods 2 to 4 segmented; reticulation variable; testa purple.

337345. Col. 337. From grower on Route 5. Valencia. Pods 2 to 4 segmented; size and shape variable; testa flesh to pink; seed size and shape variable.

337346. Col. 338. From grower on Route 5. Valencia. Testa wine or light wine. May be natural cross.

337347. Col. 339. From grower at junction of Routes 5 and 6. Valencia. Pod and seed size and shape variable. Pods 2 to 4 segmented; testa purple and/or wine. Mixture.

337348. Col. 340. From grower at junction of Routes 5 and 6. Valencia. Pod and seed size and shape variable. Pods 2 to 4 segmented; testa flesh, tan or pink.
