

404732 to 404934.

From Uruguay. Seed collected January-February 1975 by W. R. Langford, Regional Plant Introduction Station, Experiment, Georgia, and B. L. Burson, Department of Agronomy, Mississippi State University, State College, Mississippi. Received April 2, 1975.

404732 to 404735. *ADESMIA BICOLOR* (Poir.) DC. Fabaceae.

404732. 389. West slope of Cerro Montevideo. Rhizomatous, perennial legume with spreading, prostrate growth. Growing on sandy soils of south coast. Grows year round in Uruguay. Poor retention of seed. Many plants, few seed. Wild.

404733. 447. On Route 3, 52 km north-northeast of Paysandu. Perennial, erect legume to 25 cm high. Yellow flowers. Wild.

404734. 513. On Route 26, approximately 42 km west of Melo, at Arroyo del Sauce. Winter, perennial legume. Wild.

404735. 522. On Route 8, 143 km northeast of Minas. Seed not available. Wild.

404736. *ADESMIA* sp.

571. Bank of Rio de La Plata, south of Libertad. Rhizomatous, perennial, prostrate legume to 1.2 m high. Grows year round in Uruguay. Wild.

404737. *AGROPYRON SCABRIFOLIUM* (Doell) Parodi Poaceae.

391. Route 1 at Rio Santa Lucia. Winter, perennial bunchgrass with inflorescence 1.2 to 1.5 m high. Wild.

404738. *ANDROPOGON TERNATUS* (Spreng.) Nees Poaceae. **Bluestem.**

385. East slope of Cerro Montevideo. Prostrate, summer perennial bunchgrass to 30 cm high. Wild.

404739. *ARISTIDA MURINA* Cav. Poaceae. **Three-awn grass.**

349. Facultad de Agronomia, Montevideo. Compact, leafy bunchgrass with foliage 25 to 30 cm high. Seedheads 51 cm. Cultivated.

404740 and 404741. *AXONOPUS COMPRESSUS* (Sw.) Beauv. Poaceae.

Tropical carpetgrass.

404740. 381. East slope of Cerro Montevideo. Stoloniferous, sodforming, perennial, warm season grass with inflorescence to 45 cm. Wild.

404741. 413. Off Route 37, 8 km north of Piriapolis at Pan de Azucar. Low growing plant with inflorescences approximately 15 cm high. Thick cover on ground. Growing in grazed area. Wild.

404742. *AXONOPUS* sp.

390. On Route 1 at Rio Santa Lucia. Perennial, warm season grass with inflorescence 45 cm, leaves 30 cm high. Wild.

404743. *BOTHRIOCHLOA BARBINODIS* (Lag.) Herter Poaceae.

411. On Route 1, 20 km northwest of Libertad, 15 km south of coast at Kiyu. Erect bunchgrass to approximately 1.2 m at flowering. Wild.

404744. *BOTHRIOCHLOA LAGUROIDES* (DC.) Pilger

351. Franklin D. Roosevelt National Park, Carrasco, Montevideo. Erect, perennial bunchgrass with inflorescence 76 cm, leafy base. Wild.

404745. *BOUTELOUA MEGAPOTAMICA* (Spreng.) Kuntze Poaceae. **Gramma grass.**

412. On Route 1 at Rio Santa Lucia. Short, creeping perennial with inflorescences 15 cm at flowering. Leaves 5.1 cm high, small stolons. Spikelets have purple and green color. Wild.
