

**435978 TO 435984. *Leucaena leucocephala* (Lam.) de Wit (Fabaceae)
Leadtree.**

From Mexico. Donated by Instituto Nacional de Investigaciones
Agrícolas, CIAPY, Merida, Yucatan.
Received July 1979.

435978. CPY 426. Single, small shrubby tree, drought tolerant,
slow ratoon growth. Mimosine percent in leaves-young,
2.6; mature, 2.0. Cultivated. Seed.
435979. CPY 645. Single tree, drought tolerant, rapid ratoon
growth. Mimosine percent in leaves-young, 3.1; mature,
1.7. Cultivated. Seed.
435980. CPY 658. Single shrubby tree, fair drought tolerance,
slow ratoon growth. Mimosine percent in leaves-young,
3.1; mature, 2.2. Cultivated. Seed.
435981. CPY 966. Single shrubby tree, fair drought tolerance,
slow ratoon growth. Mimosine percent in leaves-young,
0.34; mature, 0.19. Cultivated. Seed.
435982. CPY 1002. Single shrubby tree, fair drought tolerance,
slow ratoon growth. Mimosine percent in leaves-young,
2.0; mature, 0.7. Cultivated. Seed.
435983. CPY 1051. Tree erect, fair drought tolerance, slow
ratoon growth. Mimosine percent in leaves-young, 3.0;
mature, 0.7. Cultivated. Seed.
435984. CPY 1054. Single shrubby tree, fair drought tolerance,
slow ratoon growth. Mimosine percent in leaves-young;
2.1; mature, 0.8. Cultivated. Seed.

435985 TO 435986. *Oryza sativa* L. (Poaceae) Rice.

From Australia. Donated by Department of Agriculture, Sydney, New
South Wales.
Received November 1979.

435985. YR 71003-9. Cultivated. Seed.
435986. YR 71011-1. Cultivated. Seed.

435987 TO 435989. *Oryza sativa* L. (Poaceae) Rice.

From Hungary. Donated by Research Centre for Agrobotany,
N.I.A.V.I., Tapioszele.
Received November 1979.

435987. I-11-101. Dubovszkij 129. Soviet Union. Cultivated. Seed.
