

PI 568054 to 568103-continued

- PI 568096 **origin:** China. **collected:** September 12, 1991.
collector: T.A. Campbell, L.R. Teuber, D.P. Mowrey.
collector id: CTM 94. **other id:** W6 9954. **group:** W6.
locality: Mountain slope. Sandy loam, many stones, good drainage. Full sun, 30 deg. slope. Next to main road through mountains on military preserve. Da Qi Mountains, 24km N of Hohhot. **latitude:** 41 deg. 00 min. N. **longitude:** 111 deg. 30 min. E. **remarks:** Plants upright with abundant seed. Considerable erosion. Sparse vegetation. 50% ground cover. Estimated 400 kg/ha biomass. Associated with *Agropyron cristatum*, *Agropyron mongolicum*, *Caragana intramongolica*. 1 M. *ruthenica*/m. Perennial. Wild. Seed.
- PI 568097 **origin:** China. **collected:** September 12, 1991.
collector: T.A. Campbell, L.R. Teuber, D.P. Mowrey.
collector id: CTM 95. **other id:** W6 9955. **group:** W6.
locality: Rolling plateau. Sandy loam, few stones, good drainage, pH Full sun, 5 deg. slope, 50 deg. bottom aspect. Just SE of apicultural area, sparse vegetation, grazed farmland. Inhabited area near main road. Toliget, 68kn N of Hohhot. **latitude:** 41 deg. 50 min. N. **longitude:** 111 deg. 25 min. E. **elevation:** 1500m. **remarks:** Plants procumbent, apparently healthy. 40% ground cover. Associated with *Artemisia* sp., *Leymus chinensis*, *Ambrosia* sp., *Avena sativa*., *Triticum aestivum*. 50 plants sampled. 1 M. *ruthenica*/m. Perennial. Wild. Seed.
- PI 568098 **origin:** China. **collected:** September 12, 1991.
collector: T.A. Campbell, L.R. Teuber, D.P. Mowrey.
collector id: CTM 97. **other id:** W6 9957. **group:** W6.
locality: Rolling plateau. Sandy soil, few stones, good drainage, pH 7.0. Full sun. Rim of marsh, 2km NW of main road. Moderate vegetation. Heavy grazing. Zouhe, 78km N of Hohhot. **latitude:** 41 deg. 53 min. N. **longitude:** 111 deg. 25 min. E. **remarks:** Plants procumbent. Pods open but most seeds green. 25% ground cover. Associated with *Agropyron cristatum*, *Agropyron mongolicum*, *Stipa* sp., *Potentilla* sp., *Artemisia* sp. 75 plants sampled. .5 M. *ruthenica*/m. Perennial. Wild. Seed.
