

Norris, R.A., ed. 1994. Plant Inventory No. 202, Part 4. Plant Materials Introduced October 1 to December 31, 1993, Nos. 573336–576437. U.S. Department of Agriculture, Agricultural Research Service, 384 pp.

This inventory is a listing of plant materials introduced into the U.S. National Plant Germplasm System in calendar year 1993. The inventory comprises four separately bound books covering PI numbers 564686–576437. It is not a listing of plant material available for distribution.

Questions and comments about the organization of data and proper identification of plants should be directed to the editor: R.A. Norris, National Germplasm Resources Laboratory, 10300 Baltimore Avenue, Building 003, Room 400, Beltsville, MD 20705.

Other contributors to the inventory included J.M. Ceresa, K.F. Endress, Q.P. Sinnott, and A.K. Stoner.

This report is reproduced essentially as supplied by the authors. It received minimal publications editing and design. The authors' views are their own and do not necessarily reflect those of the U.S. Department of Agriculture.

Copies of this publication may be purchased from the National Technical Information Service, 5285 Port Royal Road, Springfield, VA 22161.
