

Corson County. LD: NWNW36 18W 25E.

**PI 598386. *Pascopyrum smithii* (Rydb.) A. Love**  
Wild. 744; W6 3300. Collected 1979 in South Dakota, United States.  
Corson County. LD: SWSW36 19W 24E.

**PI 598387. *Pascopyrum smithii* (Rydb.) A. Love**  
Wild. 849; W6 3302. Collected 1979 in South Dakota, United States.  
Elevation 547 m. Haakon County. LD: NWSE36 2N 25E.

The following were collected by Gordon Kimber, University of Missouri, Department of Agronomy, 205 Curtis Hall, Columbia, Missouri 65211, United States; Robert J. Metzger, USDA, ARS, Oregon State University, Dept. of Crop Science, Corvallis, Oregon 97331, United States. Donated by Gordon Kimber, University of Missouri, Department of Agronomy, 205 Curtis Hall, Columbia, Missouri 65211, United States. Received 05/31/1990.

**PI 598388. *Amblyopyrum muticum* (Boiss.) Eig**  
Wild. 84TK157-0016; W6 4324. Collected 06/28/1984 in Turkey. Elevation 180 m.

**PI 598389. *Taeniatherum caput-medusae* (L.) Nevski**  
Wild. 84TK159-0047; W6 4333. Collected 06/28/1984 in Turkey. Elevation 275 m. 25km south of Sarigol, about 10km north of Buldan Junction.

The following were donated by Robert J. Metzger, USDA, ARS, Oregon State University, Dept. of Crop Science, Corvallis, Oregon 97331, United States. Received 01/01/1987.

**PI 598390. *Dasypyrum villosum* (L.) P. Candargy**  
Wild. 84B687-1; H85-630; W6 7250. Collected in Former Soviet Union.

The following were donated by J. Mattatia, Agricultural Research Organization, Department of Plant Introduction, P.O. 6, Bet-Dagan, Israel. Received 10/30/1984.

**PI 598391. *Dasypyrum villosum* (L.) P. Candargy**  
Wild. JM 3642; W6 7268. Collected 07/06/1984 in Greece. Elevation 230 m. Plants growing on terraces on hills with low stones and good drainage on a south slope, 2km before Kalambaka from Trikala to Kalambaka, Trikala, Thessaly. Plants growing with *A. neglecta*, *A. triaristata*, *A. triuncialis*, intermediate forms, putative hybrids with sterile spikes, annual and perennial grasses, hemicryptophytes, *Quercus* and *Pyrus amygdaliformis*.

**PI 598392. *Dasypyrum villosum* (L.) P. Candargy**  
Wild. JM 3650; W6 7269. Collected 07/06/1984 in Greece. Elevation 360 m. Plants growing on hills in clay with medium stones and good drainage, 1500m before junctions with Achladea, on road from Kalambaka to Grevena, Trikala, Thessaly. Plants growing with 3 other *Aegilops* species in intermixed populations, annual and perennial grasses in forest of *Quercus* and *Paliurus spina-christi*.
