

**26567 and 26568.**

From Japan. Purchased from the Yokohama Nursery Company, Yokohama, Japan. Received January 18, 19, and 20, 1910.

Seeds of the following:

**26567. CITRUS TRIFOLIATA L.**

From Kiushiu. "Up to Fukuoka this tree is cultivated, possibly as far north as Tsushima, though we are not certain. Prof. Ikeda says its north limit extends to 37° north latitude. The fruits from Kiushiu are larger than those produced here (Yokohama)." (*Yokohama Nursery Company.*)

**26568. CITRUS sp.**

*Yuzu.* "Orange grafted on this stock is said to be a little more sour than when grafted on *Citrus trifoliata.*" (*Yokohama Nursery Company.*)

"*Yuzu* is a large evergreen tree bearing round, medium-sized fruit, which is very acid, and has a coarse, thick rind. The fruit is used in Japan in place of the lemon, which is used in this country. The pulp cells are 12 or 13 in number, having 2 or 3 seeds in each. This *Yuzu* is so hardy that the bearing fruit can be seen when the ground is covered with snow more than 2 feet deep. In some sections of Japan the *Yuzu* is considered better than *Citrus trifoliata*, as trees grafted on it grow better and live longer than when grafted on *Citrus trifoliata*. When kumquats are grafted on *Yuzu* they weigh more than they do when grafted on *Citrus trifoliata* and have a smoother and more reddish-colored rind." (*Extract from a letter of Mr. Kizano contained in a letter from Mr. Walter T. Swingle, dated April 12, 1909.*)

**26570 to 26579.**

From the moister mountain regions of Asia Minor lying 25 to 30 miles from the Mediterranean, 3,000 to 4,000 feet above sea level, in lime and sandy soils. Presented by Mrs. F. A. Shepard, Adana, Turkey in Asia. Received January 3, 1910.

Seeds of the following:

**26570. AVENA SATIVA L.****Oat.****26571. PISTACIA TEREBINTHUS L.**

*Distribution.*—The countries bordering on the Mediterranean Sea, from Bozen, in Austria, to Syria and Palestine.

**26572. LATHYRUS sp.****26573. MEDICAGO ORBICULARIS MARGINATA (Willd.) Benth.****26574. TRIFOLIUM PILULARE Boiss.**

*Distribution.*—Stony and shady hills and mountain slopes in Asia Minor, extending from Smyrna through Mesopotamia and Syria.

**26575. TRIFOLIUM sp.****26576. TRIFOLIUM sp.****26577. TRIFOLIUM sp.****26578. TRIFOLIUM sp.****26579. VICIA sp. (Several species mixed.)****26580. VIGNA CATJANG (Burm.) Walp.**

From Richmond, New South Wales, Australia. Presented by Mr. H. W. Potts, Hawkesburg Agricultural College. Received January 21, 1910.

*Poona.*
