31225. CASTILLA sp.

Central American rubber.

From Vera Cruz, Mexico. Presented by Mr. William W. Canada, American consul. Received June 8, 1911.

Introduced for the work of the Bureau of Plant Industry in encouraging rubber culture in Porto Rico, the Canal Zone, and Hawaii.

31226. CRYPTOCARYA sp.

From Chile. Received through Mr. José D. Husbands, Limavida, Chile, June 9, 1911.

"This fruit is edible and sweet with no ill flavor. The ones I send were dried in the sun to make them harder, as taken ripe from the tree they baffle description; the skin slides at touch revealing a viscous, slimy, ropy-mucous, soapy-mucilaginous jelly, elastic, stringy, and has ways of its own unexampled. It soon dries and shows other qualities. This material may be valuable. It reminds one of rubber, when dried." (*Husbands.*)
