

33551 to 33587—Continued.

33576. MORINGA OLEIFERA Lam. **Horse-radish tree.**
(*Moringa pterygosperma* Gaertn.)

"The horse-radish tree. A small deciduous tree reaching a height of 30 feet. The foliage is feathery and handsome. The roots and seeds are used as a substitute for horse-radish."

Distribution.—Found in the forests of the western Himalayas in northern India and generally cultivated in the tropics.

33577. NYCTANTHES ARBOR-TRISTIS L. **Hursinger.**

"A dwarf tree or large shrub producing highly scented white flowers."

See No. 32817 for previous introduction.

33578. OWENIA CERASIFERA Muell. **Queensland-plum.**

See No. 32819 for description.

33579. PHYLLANTHUS EMBLICA L. **Emblie myrobalan.**

"A large tree with fine foliage. The fruit is eaten by the natives."

33580. PONGAM PINNATA (L.) W. F. Wight.
(*Pongamia glabra* Vent.)

"A deciduous tree with pendulous branches growing to a height of about 40 feet. The foliage is bright and handsome."

33581. PUTRANJIVA ROXBURGHII Wallich.

"A very ornamental, small evergreen tree."

Distribution.—Found throughout tropical India from the Himalayas in Kumaon eastward and southward to Pegu and Ceylon.

33582. SAPINDUS EMARGINATA Vahl. **Soap nut.**

Distribution.—Possibly only a form of *Sapindus trifoliata* L. found about villages in southern India and cultivated in Bengal.

33583. SOLANUM MACRANTHUM Dunal.

Distribution.—A shrubby Solanum from the province of Para in Brazil.

33584. SOYMIDA FEBRIFUGA (Roxb.) Juss.

"A medium-sized tree with handsome dark-green foliage."

Distribution.—A large tree found on the low hills in the northwestern, central, and southern parts of India and in Ceylon.

33585. STIGMAPHYLLON LINGULATUM (Poir.) Small.
(*Stigmaphyllon periplocaefolium* (Desf.) Juss.)

"A rapidly growing climber with handsome yellow flowers."

33586. TERMINALIA BELLERICA (Gaertn.) Roxb.

"A fine, large, shapely tree reaching a height of 80 to 90 feet; foliage evergreen and handsome. The only objection to this tree is the rather unpleasant odor of the blossoms."

33587. THESPESIA POPULNEA (L.) Solander.

"A moderate-sized tree commonly cultivated throughout India. It has large yellow flowers."

33588 to 33594.

From India. Collected by Mr. C. V. Piper, Bureau of Plant Industry, and forwarded by the American consul general, Calcutta, India. Received April 26, 1912.
