From Okitsu, Japan. Presented by Mr. T. Tanikawa, in charge of the Government Horticultural Experiment Station. Received February 19, 1914.

"We take great pleasure in sending you scions of all the *kakis* which we now have in our garden.

"These *kakis* were gathered from several localities of this country as promising varieties. We must confess that it is very difficult to collect all the varieties named in our 'Special Bulletin No. 28,' because many of them are seedlings of some varieties and named by the finder or the cultivator. Such *kakis* are almost always inferior in quality and too scarce in number to be recognized as a variety. For those reasons we regret that we can not send such *kakis* to you." (*Tanikawa.*)
