

**37748 to 37798—Contd. (Quoted notes by Mr. Dorsett and others.)**

spreading in habit, with a trunk 29 inches in circumference. Foliage dense, dark green in color; no spines. There are 145 fruits in the June crop and 50 in the December crop, the most notable variation being an occasional striped fruit. The navels vary in size from small to medium; a fine, healthy tree producing fruits of large size."

**37763.** "Tree 1-7-6. A tree about 15 years old, 18 feet in height, 20 feet in spread, erect in habit, headed 20 inches above the ground, with a trunk 2 feet in circumference. The foliage is dense, dark green in color; no spines. In the June crop there are 196 fruits and in the December crop 13 fruits. The principal variation is a protruding navel, though the size is normally small to medium. A fine, healthy tree."

**37764.** "Tree 2-5-1. A tree about 8 years old, 13 feet in height, 16 feet in spread, headed 11½ inches above the ground; spreading in habit, with a trunk 20¾ inches in circumference. The foliage is dense, dark green in color; no spines. There are 85 fruits in the June crop and 250 in the December crop. On one limb there are 8 wrinkled fruits of the Australian type. The navel is normally very small. Remarkable for the large number of fruits produced in the December crop."

**37765.** "Tree 2-6-1. Tree about 8 years old, 13 feet in height, 15 feet in spread, drooping in habit, headed 1½ feet above the ground. Trunk 18¼ inches in circumference. The foliage is dense, dark green in color; no spines. There are 44 fruits in the June crop and 327 in the December crop, all being very uniform in type. The navel is uniformly small. This tree is remarkable for the large number of fruits in the December crop."

**37766.** "Tree 2-11-1. A tree about 8 years old, 11 feet in height, 13 feet in spread, headed 16 inches above the ground, spreading in habit, circumference of trunk 16¾ inches. Foliage very dense, dark green; a few small spines. In the June crop there are 50 fruits and in the December crop 59. The principal variations noted are a few large navels and the abnormal shape of the fruit. The navel is normally medium sized. Selected for its apparent tendency to produce fruit throughout the year."

**37767.** "Tree 2-8-4. A tree about 8 years old, 13 feet in height, 18 feet in spread, headed 10 inches above the ground, spreading in habit, trunk 20½ inches in circumference. Foliage very dense, dark green in color; a few small spines. In the June crop there are 262 fruits and 21 in the December crop, among which there are a few with very large navels, although the navel is normally medium sized. This tree was selected for its large production of June fruits."
