P l a t e s :

Hedge of the Pitanga or Surinam cherry in Bahia, Brazil.
 An old Chinese elm in the Lama Temple Yard, Pekin.
 An old Mango tree at Alta da Santo Antonio, Itaparica, Brazil.
 The White Barked Pine of China.

Applications for material listed in these multigraphed sheets may be made at any time to this Office. As they are received they are placed on file, and when the material is ready for the use of experimenters it is sent to those on the list of applicants who can show that they are prepared to care for it, as well as to others selected because of their special fitness to experiment with the particular plants imported. Do not wait for the Autumn Catalogue.

One of the main objects of the Office of Foreign Seed and Plant Introduction is to secure material for plant experimenters, and it will undertake as far as possible to fill any specific requests for foreign seeds or plants from plant breeders and others interested.

Permission to publish on application only.
