

Jujubes. *Zizyphus jujuba*. Natural size.

Two extreme forms of jujubes. To the left a very elongated one of yellowish-brown color, called "chi hsim tsao," meaning "chicken's heart jujube." On the right a round, compressed variety of dark mahogany-brown color, called "Tien tsao," meaning "sweet jujube." Photographed in Sianfu, Shensi, China, August 30, 1914, by Frank N. Meyer. Photograph No. 13123.
