

Farms, Ottawa, Canada, 1906-1915, in which will be found a full account of the development of the remarkable collection of seedlings at the Experimental Farms, Ottawa.)

Malus sylvestris Miller. (Malaceae.) 44718. **Apple scions** from Ottawa, Canada. Presented by Mr. W. T. Macoun, Dominion Horticulturist, Central Experiment Farm, for trial at the Northern Great Plains Experiment Station, Mandan, North Dakota. **Luke.** A large-sized **Wealthy** seedling with pale greenish-yellow skin and a red cheek, and yellowish, coarse, juicy flesh. Season October and November to late December. (See Reports of the Horticulturist, Experimental Farms, Ottawa, Canada, 1906-1915, in which will be found a full account of the development of the remarkable collection of seedlings at the Experimental Farms, Ottawa.)

Malus sylvestris Miller. (Malaceae.) 44719. **Apple cuttings** from Ottawa, Canada. Presented by Mr. W. T. Macoun, Dominion Horticulturist, Central Experiment Farm, for trial at the Northern Great Plains Experiment Station, Mandan, North Dakota. **Melvin.** A medium-sized **Wealthy** seedling with pale yellow red-splashed skin and reddish-yellow, tender, melting, flesh of good spicy flavor. Season middle to end of August. Considerably like **Sops of Wine** in outward appearance and quality. (See Reports of the Horticulturist, Experimental Farms, Ottawa, Canada, 1906-1915, in which will be found a full account of the development of the remarkable collection of seedlings at the Experimental Farms, Ottawa.)

Malus sylvestris Miller. (Malaceae.) 44720. **Apple cuttings** from Ottawa, Canada. Presented by Mr. W. T. Macoun, Dominion Horticulturist, Central Experiment Farm, for trial at the Northern Great Plains Experiment Station, Mandan, North Dakota. **Rupert.** A large-sized seedling of **Russian** with pale greenish-yellow, pink-tinged skin and white, tender, juicy flesh. Quality good; season early August. Earlier than **Tetofsky** and better than **Yellow Transparent**. (See Reports of the Horticulturist, Experimental Farms, Ottawa, Canada, 1906-1915, in which will be found a full account of the development of the remarkable collection of seedlings at the Experimental Farms, Ottawa.)
