

Australian *Crotalaria* (No. 41571), which Mr. James Pink, who sends it in, predicts will be highly successful in borders in dry situations.

The Pondoland cocos (*Jubaeopsis caffra*, No. 41484) will have a botanical interest to all palm lovers as the only member of the tribe to which the coconut belongs, which occurs in Africa, - all the others being inhabitants of the Western Hemisphere.

David Fairchild,
Agricultural Explorer in Charge.

OBITUARY.

Stephen Conrad Stuntz.

It is with the deepest regret that we announce the death from pneumonia, on the third of February, 1918, of Mr. Stephen Conrad Stuntz, who has had charge of all the publications of this office for the last eight years. Mr. Stuntz devoted much time and energy to the building up of Plant Immigrants and its originality and many of its characteristics will remain as a concrete evidence of his industry, intelligence, and botanical ability.

Remember that a fifty dollar Liberty Bond will supply a bandage long enough to go from the Capitol to the White House and back again (nearly two miles) or it will bandage 555 hands.
