

*Clematis montevidensis* (Ranunculaceae), 50391. *Clematis*. From Montevideo, Uruguay. Seeds presented by Mr. Luis Guillot, Direccion General de Paseos Publicos. A very attractive clematis found in thickets in various parts of Uruguay, especially near the town of Salto, where it climbs the trees and shrubs. The large whitish-yellow flowers are almost an inch in diameter, and are borne in axillary and terminal clusters. The ashy-green leaves are either entire or more or less three-lobed. (Adapted from Archavaleta, Flora Uruguayana, vol. 1, p. 24.)

*Eucalyptus tereticornis* (Myrtaceae), 50347. From Kulare, via Cairns, Queensland. Seeds presented by Mr. J. A. Hamilton.

"This tree is usually not more than 100 feet high in Australia. It grows best near the coast, but endures the dry heat of the interior valleys. The trees of this species furnish an excellent red timber which is very hard and durable." (McClatchie, Eucalypts Cultivated in the United States, Bulletin No. 35, U. S. Bureau of Forestry, p. 81.)

*Guizotia abyssinica* (Asteraceae), 50155. From Burttholm, Vereeniging, Transvaal. Seeds presented by Mr. J. Burttholm-Davy. "'Ramtil.' An African oil seed." (Burttholm-Davy.)

An annual composite, native to tropical Africa but cultivated in most of the provinces of India for the sake of the oil-producing seeds. The seed is sown from June to August and harvested in November and December, and prefers light sandy soil. The pale yellow oil is used for making paints, for lubrication, and for lighting purposes. (Adapted from Watt, Dictionary of the Economic products of India, vol. 4, p. 186.)

*Hibiscus mutabilis* (Malvaceae), 50156. From Elizabethville, Belgian Kongo. Seeds presented by Mr. J. Burttholm-Davy. A tall East Indian shrub with large, broad, cordate leaves and large white flowers which change to red. It blooms in summer and late autumn, and is considerably planted in gardens and hedges in the Bermudas. (Adapted from Britton, Flora of Bermuda, p. 238.)

*Indigofera dosua tomentosa* (Fabaceae), 50369. From Darjiling, India. Seeds presented by Mr. G. H. Cave, curator, Lloyd Botanic Garden. A shrub of the temperate
