

TRIFOLIUM PRATENSE. 28036. Orel clover from Riga, Russia. Purchased from Messrs. Vollmer & Co. For immediate distribution.

TRIFOLIUM SP. 28045. From near Guda-ur, Caucasus. A perennial clover found on dry mountain slopes at elevations of about 7,000 feet above sea level. Apparently able to stand severe cold and is very drought resistant. (Meyer's introduction.)

VILLARESIA MUCRONATA. 28116. Received from Mr. Jose D. Husbands, Limavida, Chile. A tree growing in the central provinces of Chile, and extending as far southward as the region around Concepcion. For distribution later.

NOTES FROM FOREIGN CORRESPONDENTS.

RHODESIA, Salisbury. Mr. R. McIlwaine, May 13. Offers his services in procuring any seeds we may want from that region, and says he has exceptional facilities for securing seed.

RUSSIA, BAKU, CAUCASUS. MR. F. N. MEYER, AGRICULTURAL EXPLORER. In addition to the plants sent, which will be described under their S. P. I. numbers, he sends five books on grape culture in the Caucasus.
