

*LALLEMANTIA IBERICA*. (Menthaceae.) 29932. Seed from Kew, England. Presented by Dr. David Prain, Director, Royal Botanical Gardens. This plant which is now being cultivated in Southern Russia for its oil-producing seed, is introduced in order to test its value as an oil-crop, the oil being considered one of the highest grade drying oils. As it occurs native in the drier parts of Palestine, it may be of great importance in the semi-arid portions of the Southwest. For distribution later.

*LATHYRUS SPP.* (Fabaceae.) 29933-945. Seeds of thirteen species of Lathyrus from Kew, England. Presented by Dr. David Prain, Director, Royal Botanic Gardens. Introduced for the work of the Office of Forage Crop Investigations. For distribution later.

*MANGIFERA INDICA*. (Anacardiaceae.) 30085-089. Cuttings of mango from Lucknow, United Provinces, India. Presented by Mr. H. J. Davies, Superintendent, Government Horticultural Gardens, at the request of Rev. N. L. Rockey, Gonda, United Provinces. 30085. Amin. 30086. Bombay. 30087. Dilpasand. 30088. Langra. 30089. Safeda. All for distribution later.

*MEDICAGO CANCELLATA*. (Fabaceae.) 30061. Seed collected near Sarepta, Russia, on top of the Jergeni hills, on white stony, sandy soil effervescing with acid, by Mr. W. Grekow, Zarizyn, Saratoff, Russia. Presented by Mr. W. V. Arapow, Samara, Russia. For distribution later.

*MEDICAGO FALCATA*. (Fabaceae.) Seed from Svälöf, Sweden. Presented by Dr. N. H. Nilsson, Director, Swedish Seed-breeding Association. "This is seed from our real *Medicago falcata* which grows wild in most parts of our country and it is a very good species. Its harvest-value is not very great, as it is frequently lying down, but as a pasture plant it is the more valuable. It turns vast dry stretches of sandy (but calcareous) ground into excellent pasture fields, where an astonishingly great number of cattle can feed the whole summer. The seed should be prepared in order to make it germinate." (Nilsson.) For distribution later.

*MEDICAGO FALCATA*. (Fabaceae.) 30009. Seed from Simla, India. Purchased from Mr. F. Booth Tucker, The Salvation Army, Simla. From Kashmir. For distribution later.

*PRUNUS SP.* (Amygdalaceae.) 29921. Seeds of a cherry from Tokyo, Japan. Presented by Dr. T. Watase, the Tokyo Plant, Seed and Implement Company. "Oshima Sakura. The fastest growing variety of cherry trees, the wood of which is valued for fuel and charcoal." In Japan where the charcoal fire is a great
