

343184 and 343185—Continued

343184. Collected at Lakeside Station October 1965.

343185. Collected at Boogardie Station February 1966.

343186 to 343193.

From Iran. Seed collected by M. D. Kernick, Food and Agriculture Organization, Pasture Specialist, Tehran and received through D. R. Dewey, Crops Research Laboratory, Logan, Utah. Numbered May 28, 1969.

343186. AGROPYRON INTERMEDIUM var. TRICHOPHORUM (Link) Halac.

292. Borudjan. 1966.

343187. AGROPYRON CRISTATUM (L.) Gaertn.

Crested wheatgrass.

124. S. Mianeh. 1960.

343188. AGROPYRON ~~TAURI~~ *ibranoticum* Hack. (Sum 58) Boiss. & Bal.

160. Kandavan. 1966.

343189 to 343192. PSATHYSTACHYS FRAGILIS (Boiss.) Nevski. Gramineae.

343189. 143. 1965.

343191. 248. Homand. 1966.

343190. 176. 1966.

343192. 336. 1964.

343193. HORDEUM VIOLACEUM Boiss. & Hohen. ex Boiss. Gramineae.

222. Karadj. 1966.

343194. SACCHARUM (hybrid) Gramineae.

Sugarcane.

From Australia. Cuttings presented by the Colonial Sugar Refining Company, Sydney. Numbered May 29, 1969.

63 MQ 168R.

343195 and 343196.

From Kenya. Seed collected by Quentin Jones. Plant Science Research Division, Plant Industry Station, Beltsville, Maryland. Numbered June 2, 1969.

343195. ERAGROSTIS ~~sp.~~ *lasiantha* (Sum 52) Gramineae.

6940. Nyong Road Forest about 32 km. southwest of Nairobi. Low, moist meadow, soil gray, heavy. Culms to 75 cm., reddish; inflorescence dark gray, spikelets flattened, arranged on one side of panicle branches. Ornamental.

343196. SETARIA ~~sp.~~ *sphaerulata* (Sum 44) Gramineae.

6939. Nyong Road Forest about 32 km. southwest of Nairobi. Low, moist meadow, soil gray, heavy. Seeding culms to 90 cm. high; leafy at base, rhizomatous.

343197 and 343198.

From Brazil. Seed presented by B. V. Skvotzov, Instituto de Botanica, Sao Paulo. Numbered June 2, 1969.

343197. MONTANOIA BIPINNATIFIDA (Kunth) C. Koch Compositae.

343198. TETRAGONIA TETRAGONIODES (Pallas) O. Ktze. Aizoaceae.

343199 to 343209. SOLANUM (hybrid). Solanaceae.

From Germany. Tubers presented by Max-Planck Institut fur Zuchtungs-forschung, Kol-Vogelsang. Numbered June 2, 1969.

Parentage includes *S. acaule*, *S. andigena*, *S. demissum*, *S. stoloniferum* and *S. tuberosum*.

343199. 57.1775/110. Immune to viruses A, X, Y; very resistant to leaf roll. Good for chips. Late main crop.
