

404600 to 404723—Continued

404673 to 404680. *PASPALUM PLICATULUM* Michx. **Brownseed paspalum.**

404673. 204. National Institute of Agronomy, Caapucu. Giant form of plant with inflorescence approximately 1.5 m high. Coarse stems and leaves. Cultivated.

404674. 215. On Route 12, 15 km northwest of Chaco-I. Fine leaf form, approximately 45 to 61 cm high at flowering. Wild.

404675. 262. Mennonite Experiment Station, 10 km northeast of Filadelfia. Very leafy form of plant with inflorescence 0.7 m high, leaves 0.3 m. Growing in dry area with annual rainfall 61 cm. Wild.

404676. 267. On Route 2, 114 km east of Asuncion. Plant with inflorescence 1.06 to 1.22 m high. Blue-green foliage, stems flattened, open center. One of many forms of this species growing at this site. Wild.

404677. 298. Heisecke Ranch, 15 km south of Buena Vista. Leafy form with fine stems. Wild.

404678. 306. Heisecke Ranch, 12 km south of Buena Vista. Stemmy plant with erect leaves. Small seeded form. Wild.

404679. 308. Heisecke Ranch, 12 km south of Buena Vista. Stemmy plant with inflorescence 1.5 m high, leaves 0.3 m. May be an offtype. Wild.

404680. 312. Fonciere Ranch, 30 km southwest of Buena Vista. Plant with inflorescence 0.6 m high. Fine, narrow leaves. Reported to be one of the better forage grasses in this area. Local name "Flower of the North". Wild.

404681. *PASPALUM PLICATULUM* var. *VILLOSISSIMUM* Pilg.

208. National Institute of Agronomy, Caapucu. Plant with very pubescent, blue-green leaves. Cultivated.

404682. *PASPALUM* sp.

199. National Institute of Agronomy, Caapucu. Leafy bunchgrass with leaves 0.9 m. Inflorescence 1.5 m high similar to *P. rojosii* or *P. guenorum*. More leafy than any type seen before. This species is unclassified in Paraguay. Cultivated.

404683. *PASPALUM* sp.

236. Desarrollo Ganadero-Estancia "Barrerito", 15 km east of Caapucu. Tall, coarse, bunchgrass with inflorescence 2.1 m. Leaves 1.5 m high. Wild.

404684. *PASPALUM* sp.

237. Desarrollo Ganadero-Estancia "Barrerito", 15 km east of Caapucu. Plant similar to *P. quadrifarium*. Leaves not too coarse. Growing in low, moist area. Wild.

404685. *PASPALUM* sp.

242. On Route 9, 20 km west of Rio Paraguay. Small bunchgrass 38 cm high at flowering, fine leaved. Spikelets similar to dallisgrass and foliage color similar to *P. nicorae*. Wild.

404686. *PASPALUM* sp.

243. Chaco Region, 30 km from Rio Paraguay. Small, erect bunchgrass with flat or compressed leaf sheaths. Growing in low, moist area. Wild.

404687. *PASPALUM* sp.

250. Chaco Region, on Route 9, 120 km northwest of Rio Paraguay. Erect plant 30 cm high. Growing in area that is flooded frequently. Wild.

404688. *PASPALUM* sp.

253. Chaco Region, 6 km northwest of Estacion Experimental Ganadera. Erect, robust plant with inflorescence 2.1 m high and leaves 1.2 m. Leaves similar to *P. conspersum*, but not as coarse. Wild.
